

college tips

DORM LIFE

1

make a group chat

If you have roommates, it is best to make a group chat to make sure you all communicate smoothly.

Make sure to start texting your roommate the summer to get to know them

2

schedule chores

Build a schedule of chores, so that you (and roommates) can have responsibility of dishes, laundry, cleaning, etc.

3

stock up essentials

You know the feeling of missing something crucial?

Bring the essentials:

Hangers, storage bins, laundry basket, toilet paper, utensils, etc. Make sure to stock up on snacks, just in case you don't like the cafeteria food.

4

be mindful

If you are going to have people over, tell your roommates. If you are partying or having friends over, mind the neighbors if it's late. Keep in mind your roommates may study.
